

# Guided changeovers

(Revolutionary new tool used by major US food manufacturer)

**Changeover ISSUES:**

**COT2-device**

**Turn-key SOLUTION**

Machine changeovers ALWAYS create:

- **Reduced OEE of entire line**
- **Unnecessary Scrap**
- **Out-of-spec products**
- **Unpredictable line downtime**
- **Dependence on operator's skills**
- **Increased inventories**
- **Longer lead times**
- **Outside storage costs**

MID – Manufacturing Improvement Devices, Inc.  
[www.oeeincrease.com](http://www.oeeincrease.com)

COT2-device **solves ALL potential issues** of machine changeovers:

- **Line OEE is visibly improved**
- **No Scrap**
- **No out-of-spec products**
- **No machine “tweaking”**
- **No Ramp-up time**
- **No operator's skills needed**
- **Very predictable line downtime**
- **Fully guided adjustments**
- **10 min new operator training**
