# Computer Guided Machine Changeovers

Revolutionary approach delivers BIG time / money savings for any machine

## Changeover ISSUES

“Old school” approach DELIVERS:

- Difficult Line Start-Ups
- Scrap during Ramp-Up
- Out-of-Spec Products
- Dependence on Operator Skills
- Unpredictable Line Downtime
- Degraded OEE of Entire Line
- Slow - 1 Changeover at a Time
- Increased Inventories
- Outside Storage Costs

## Changeover Tool

Features:

- Location Aware Distance Measurement
- Serves 5 Machines (50 Adjustments Each)
- Standalone Operation (No IT Integration)
- Hands-Free, Wireless Battery Operation
- Wireless AR Goggles as Guidance Display

## Turn-key SOLUTION

Changeover Tool DELIVERS:

- OEE improvement of Entire Line
- Reliable Start-Ups Every Time
- No Scrap
- No Out-of-Spec Products
- No Ramp-Up Time (No Tweaking)
- Predictable Line Downtime
- Better Human Asset Productivity
- Basic Predictive Maintenance
- Easy Multi-Machine Adjustments
- No Operator Experience Needed
- Simple Operator Training
- Cost-Effective Solution (ROI)
